

# Antalis: here to help you grow your business

As the leading merchant in our various sectors of activity, we are committed to launching initiatives that will have a positive impact on the future and benefit all our customers. These initiatives aim to encourage the uptake of digital printing, support the paper industry in the face of a growing “zero paper” culture, meet the environmental challenges of our customers, offer the broadest range of services on the market including services adapted to the specific needs of the creative community and offer innovative packaging solution. It is by creating added value for you and your customers, through our products and our initiatives, that we will grow our businesses together.

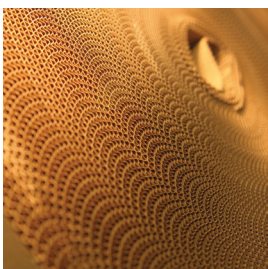

## Paper for printing

With more than 13,000 products, Antalis offers the broadest print product range on the market. Our portfolio is constantly updated with new creative, coated, uncoated, digital and offset printing paper in a variety of paper weights and formats, as well as ivory board, graphical board, envelopes, self-adhesive, labels, synthetics film.

## Paper for your office

Antalis distributes a complete range of office paper and envelopes suitable for the very latest office digital printing technologies (laser and inkjet) and photocopiers. Our large choice of leading brands, in particular the Image and Xerox ranges of office and digital papers, means that we can supply a variety of customers from sizeable public and private organisations to office supplies dealers, and act as a one-stop shop for smaller companies.

## Innovative packaging solutions

Antalis is the only pan-European packaging merchant offering a full-range of packaging material, machines, solutions and services. The Antalis packaging portfolio includes more than 5,000 standard product references for items such as cardboard boxes and stretch film as well as bespoke packaging solutions, especially for the export market and protection against corrosion for industrial goods. Personal consulting services on the best solution for any packaging issue, laboratory testing, packaging design centres and paper converting are just some of the added value services we can provide.

## Materials for your visual communication

Antalis offers a vast choice of media for signage, screen and large format printing. The range of media continues to grow to deliver more colours, textures and greater visibility all while strengthening product security and resistance to the elements.

## Helping you develop your digital business

The digital print market is growing rapidly thanks to the advances in printing technologies and techniques. To help you take full advantage of the latest developments in digital printing and grow your business we've launched Digital-to-Business (d2b) initiative. The d2b initiative focuses on offering customers the broadest range of substrates suitable for digital printing presses and certified to the highest standards, as well as creating opportunities to share experiences and best practices with other players in the digital printing eco-system through open days and workshops.

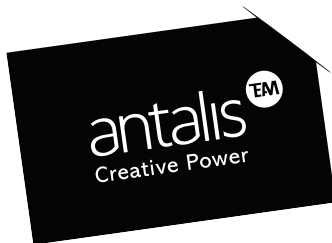

---

## Helping you achieve “green” excellence

The paper industry is one of the most advanced in terms of the environment yet far too few of your customers are aware of it. Antalis is committed to helping you meet the challenge of implementing a comprehensive sustainable development strategy while also fighting to combat the misconceptions that are undermining the paper market. To achieve this, Antalis has developed the “Antalis Green Connection”, an umbrella corporate initiative that aims to facilitate understanding of the environmental credentials of the Antalis product ranges with such tools as the “green stamp” logo and the “Green Star System”. Incorporating information on the origin of the fibre and the manufacturing process and with a rating from 0 to 5, the Green Star System allows you to easily identify and promote those products that offer superior environmental guarantees.

---

## Helping you develop your creative paper business

Antalis can offer you a wide range of creative papers to showcase your talents including leading brands such as Conqueror, KeayKolour, Pop'Set, Rives and Curious Collection - a paper to meet your every design need.

To support you and ensure you are aware of the huge choice of creative papers available and the diverse application possibilities, you can rely on our experts for advice. Our experienced team of paper consultants can help you to choose the best material to enhance your creation with technical advice, printed samples and dummies and swatch books to help you with your creative projects.

Choosing a creative paper rather than a standard coated or uncoated paper can make a concept more relevant, a message more impactful and bring real added value to a printed piece. That is why we have launched Antalis Creative Power. Antalis Creative Power combines our large product offering and associated services to help you to make the right choice of creative papers.

---

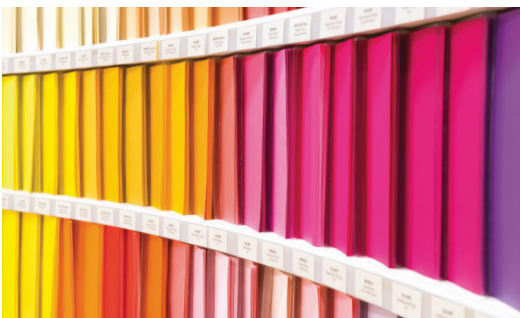

# Services to help you at every level of your business.

At Antalis we're focussed on giving you great service from start to finish. Our services are what make the difference in an increasingly competitive economic environment. Advice, training, bespoke services, personalisation, logistics... all helping to anticipate your future needs and help your business evolve, in order to remain competitive both day and tomorrow. Whether we are talking about adding innovative new products to our 13,000 strong range, environmental consultancy services or online ordering tools - it's all about providing first class services to our customers. To find out more... Just ask Antalis

## SAMPLING SERVICE

---

### To help you sell better.

Respond quickly and effectively to customer or prospect enquiries, offer a solution to a particularly complex request, be innovative, be more competitive in terms of cost, integrate new products, give samples or dummies... These are just some of the many challenges that can help you win a project. This is why Antalis has created a pallet of Services to help you choose more quickly and easily the product best suited to your customers' specific needs from a range of over 13,000 products.

## PACKAGING CONSULTANCY AND SERVICES

---

### To help you be more innovative.

Our packaging services and free consultation options are designed to help you fully optimise your packaging processes and minimise your costs. Packaging experts work with you to understand your requirements and identify where improvements can be made to your current packaging. We then design, test and introduce a packaging solutions that fits your needs, covering anything from standard packaging materials and machinery, to customised products and fully bespoke solutions. Our in-house systems engineers are also on hand to support you when choosing and installing a packaging system or machine.

## SUSTAINABLE DEVELOPMENT SUPPORT

---

### To help your business answer your customers' green challenges.

The environment is becoming an increasingly important subject in everyday life. Your customers are more and more environmentally aware. You want to develop your business in a sustainable manner. However, navigating between certifications and regulations is not that easy, nor in choosing the most eco-friendly paper or responding to a Corporate Social Responsibility Manager who questions you on the carbon footprint of his future brochure. Ask for a copy of our CSR policy.

## ONLINE ORDERING

### To help you develop your business.

Our online ordering tool and product catalogue allows you to check stock and prices, search our extensive product range, view your order history and check proof of delivery. With your own unique account number, you can order products 24 hours - 7 days a week. With a simple click you can view your order history making it easy to replicate orders and helpful when managing your orders. If you operate an electronic procurement system that can send and receive purchase orders, order acknowledgements and invoices electronically using EDI, XML or CSV files – then we can integrate your system with our back office making one seamless, efficient ordering process.

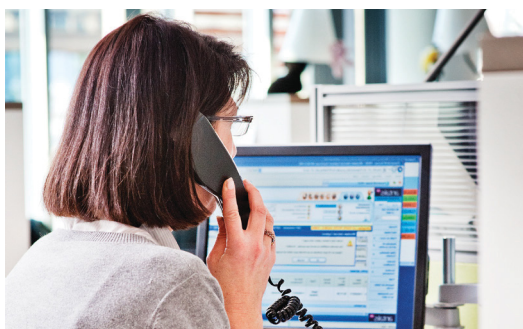

## VALUE ADDED LOGISTIC

### To help your business stay ahead.

We offer guaranteed next day delivery as standard, but we can also offer more flexible options including same day, multi drop and, in exceptional circumstances, out of hours and express deliveries so you can manage your time critical consignments down to the last minute. We can make deliveries to your customers for you on your behalf if required. If you order paper at regular intervals or in large quantities, we also have the capability to assign a delivery time especially for you.

## CUSTOMER CARE

### To simply help you.

From the moment you start working with us you'll notice a distinctive quality: the confidence that comes from being an organisation with the strength and scale to deliver on our promises. Don't take our word for it. Our customers are the ones who really know what it's like working with us.

“ Managing a fast paced reprographics studio means that you have to have the right third party vendors and suppliers in place. Antalis have always responded with great communication, a broad digital product range and knowledgeable sales reps and account managers. We are pleased to have had a long standing relationship with a supplier who is receptive to our needs and has an adaptable approach. ”

Aaron Limbert, *Facilities Manager - Argos*

FORESTS AREN'T SIMPLY A RESOURCE, THEY ARE ALSO A VALUABLE PART OF OUR ECOSYSTEM, OFFERING A HABITAT FOR MANY SPECIES, A HOME FOR FOREST PEOPLE, AND A VALUABLE LEISURE RESOURCE FOR MILLIONS. ANTALIS HAS A RESPONSIBILITY TO MAKE SURE THAT ALL RAW MATERIAL SOURCING IS COMING FROM LEGAL, SUSTAINABLE NATURAL RESOURCES.

By maintaining forest areas sustainably, we can protect forest people and species, maintain a healthy forest environment and make wood available for paper, furniture making, fuel, and its countless other uses. Furthermore, healthy forests play an important role in reducing CO<sub>2</sub> levels in the atmosphere.

Most paper products are produced either from wood or recycled fibres, which means that our industry is directly linked to the sustainable management of renewable resources.

Antalis prioritises products made out of recycled fibre, and we ensure all virgin (ie non-recycled) materials we use in our paper are 100% traceable and are not from protected sources such as Mixed Tropical Hardwood. This means we strive to offer our customers valuable guarantees regarding the legality and sustainability of our paper.

Antalis considers it has a responsibility to guarantee responsible sourcing through traceability. We need not only to be sure that we are not involved in deforestation or unsustainable sourcing, we need to be able to prove it.

**Antalis has developed a dedicated strategy and has specific tools on these topics:**

- Sourcing policy
- Multisite certification
- Online supplier platform

## SOURCING POLICY

Our new sourcing policy was introduced in 2012. It is based upon a commitment not to source wood based products from unsustainable resources.

**We do not procure fibre or paper coming from wood which has been:**

- Illegally harvested.
- Logged in protected areas or areas currently undergoing official processes of designation for protection, unless the logging is clearly in line with national conservation regulation.
- Harvested in forests where High Conservation Value has been defined by the High Conservation Value Resource Network (HCVRN), and duly interpreted through balance stakeholder processes.
- Sourced from areas undergoing conversion from forest or other wooded ecosystems, to plantation or non-forest uses, unless such conversion is justified on grounds of net social and environmental gain.
- Harvested in violation of traditional rights or civil rights.

**“ANTALIS AIMS AT BRINGING TO ITS CUSTOMERS TOTAL TRANSPARENCY AND TRACEABILITY ON ITS PRODUCTS AND GUARANTEES RESPONSIBLE RAW MATERIAL IN ALL SOURCING”**

OLIVIER GUICHARDON, CSR DIRECTOR, SEQUANA

# FOCUS

## MYRMEX – SUPPLIER INFORMATION EXCHANGE

In order to simplify the flow of information with suppliers, Antalis has created the MYRMEX online platform. Suppliers provide data on:

- Compliance with certifications and laws affecting the products we source from our suppliers.
- Suppliers' attitudes towards the environment and social (ie. Labor law and human rights) and ethical responsibilities.
- Any chemical substances and base materials used in the supplied products and their compliance with regulations.

This secure, confidential database offers Antalis and its partners alike simple, quick access to information, including traceability, that can help them improve CSR performance. Since the database was created in September 2013, we have targeted and engaged with some 200 suppliers, who together account for 90% of our purchasing volume.

## MULTISITE FSC® AND PEFC CERTIFICATION

Antalis is the first merchant in the market to have set up a multisite FSC® and PEFC certification to ensure full traceability and transparency through the entire supply chain, ensuring compliance from forest to warehouse. Audits are performed on logistics (labelling, separate product storage, delivery) as well as information systems (including referencing and product categories) and marketing and sales processes such as the use of logos and training. All certified countries are required to meet the same environmental requirements for their customers.

## EU TIMBER REGULATION (EUTR) COMPLIANCE

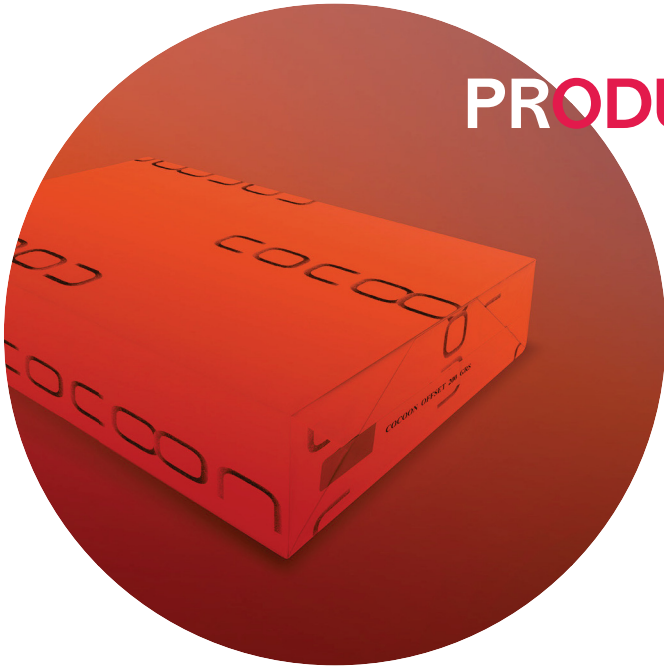

All wood-based products imported into the European Union must be accompanied by a due diligence and risk assessment report that includes details of the tree species used and the source of the wood. Our responsibility is to ensure that we fully comply with this important legislation.

# PRODUCT OFFER

## SUSTAINABLE PRODUCTS

### SUSTAINABLE PRODUCTS FOR SUSTAINABLE BUSINESSES

The goal of Antalis is to be THE eco-responsible paper merchant, and we have fully embedded this goal into both our business and our strategy. To do so, we have created the Green Connection initiative, bringing together all our related initiatives and programs to create a comprehensive offer of responsible products and services, actions, communication, and marketing tools. This includes White Paper as well as events and seminars.

Customers can easily identify these programs and actions, which are clearly labelled with a distinctive stamp. This appears on all relevant corporate communications material, product brochures, event booths, and publicity material; making a clear expression of our environmental commitments and strategy.

Antalis is determined to be the undisputed eco-responsible leader in our industry, and we are working on increasing environmental responsibility across our entire offer. For example, in packaging, we offer customers corrugated board

made from recycled paper, while in the visual communication area we are finding ways to replace plastics with paper and to replace some adhesives with more responsible alternatives.

However, paper remains the core of our business and we are concentrating our efforts on becoming the undisputed eco-responsible paper merchant, especially throughout our range of eco-responsible papers. What do we mean by eco-responsible?

We believe a credible eco-responsible paper product must take into account two elements: the origin of its raw materials and its manufacturing process.

Furthermore, we believe our products must be judged against internationally recognized standards, and should be easy for our customers to identify, understand and use to communicate their environmental efforts.

## GREEN STAR SYSTEM™

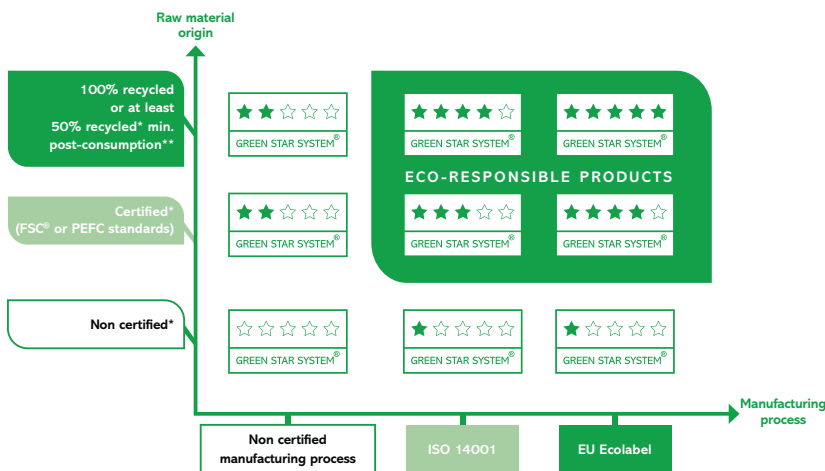

Our customers have told us that they want to make environmentally sound paper choices. We understand that, to the non-specialist, identifying products with the right balance of performance and responsibility isn't always easy due to the numerous environmental credentials.

As a response to this challenge, we created the Green Star System™ based on universally recognized standards. It converts often highly technical information about sourcing, materials and manufacturing into a simple rating anyone can understand. It's ideal for companies wishing to communicate their environmental efforts.

## WHAT IS AN ECO-RESPONSIBLE PAPER?

All Antalis papers have a zero to five star rating awarded according to objective, factual criteria concerning the origins of its raw materials, and its manufacturing process. Customers and end-users choosing an eco-responsible product (i.e. one with a rating of at least 3 stars) know they are getting a product with strong environmental credentials. It makes them part of a virtuous circle of real eco-responsibility and they are free to use the Green Star System™ in their own communication.

\* according to the criteria of FSC® or PEFC standards.  
 \*\* with the remaining percentage fulfilling the requirement of FSC® or PEFC standards.

**“THE GREEN STAR SYSTEM™ IS A SIMPLE AND TRUSTWORTHY WAY TO HELP OUR CUSTOMERS CHOOSE THE MOST ECO-RESPONSIBLE PAPER”**

**XAVIER JOUVET**  
 MARKETING & PURCHASING DIRECTOR, ANTALIS GROUP

## THE GREEN WHITE PAPER

This tool provides concrete advice on how companies can integrate paper products into their sustainable development strategy, and enjoy the advantages of a properly managed paper sourcing policy.

## DID YOU KNOW VIDEO?

Our video presentation debunks all those widespread myths about the paper industry, which is in fact, the leading user of renewable energy and contributes widely to reforestation. Three facts you may not know about paper and our industry:

- A page displayed on a screen for three minutes consumes more energy than the printed equivalent.
- An electronic invoice sent by e-mail releases 242g of CO<sub>2</sub>, the equivalent of the production and dispatch of 15 paper invoices.
- Over the past 20 years, European forests have increased by 17 million hectares – the equivalent of 1.5 million football fields – every year.

To see the video, go to [antalis.co.uk](http://antalis.co.uk)

# Introducing the Digital Academy

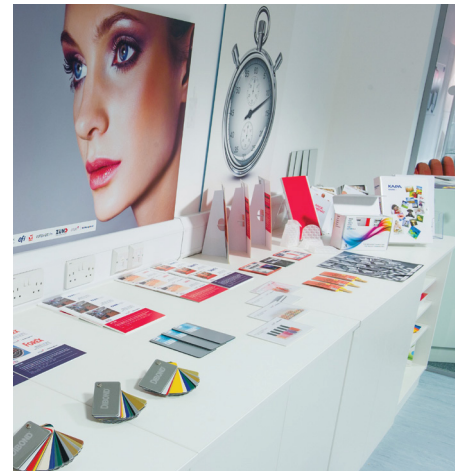

Our Digital Academy exemplifies our attitude to innovation. It's a unique centre of excellence we've launched to allow us to explore and share the latest techniques and approaches in digital printing and technology, based in our HQ in Leicestershire.

If you're fascinated by the potential and power of digital printing, you'll meet like minds at the Antalis Digital Academy. The Academy is equipped with an array of the latest digital equipment, from desktop printers to office printers to large format printers, and is a centre of excellence in the latest applications for digital printing technologies.

The Academy offers live demonstrations and real life case studies, and is a source of expert information whether you're looking at investing in digital print or you're a digital printer looking to expand your business portfolio and maximise the potential of your machinery.

The Academy runs a series of courses throughout the year on various aspects of digital printing including specific software packages, large format printing and car wrapping, as well as very specific issues like problems with static electricity.

Our specialists would love to share their knowledge with you.

---

## What does the Digital Academy offer?

---

A centre of excellence for exploring the potential of digital print

---

The latest digital equipment, both small and large format

---

Live demonstrations and real life case studies

---

Regular training workshops and courses

---

New techniques for your existing machinery

---

Essential information if you're planning to invest in digital kit

## Sample courses

The Academy regularly runs training courses for printers, usually one or two-day workshops. Here are some examples:

---

### **Introduction to Vehicle Wrapping and Vinyl Application Workshop**

For printers considering moving into vehicle wrapping, an understanding of whether it's right for your business and an introduction to all types of vinyl application.

---

### **Colour Management Workshop**

For companies with one or more types of digital printers who want to get consistent and repeatable colour across different devices.

---

### **Introduction to the Large Format Market Workshop**

For commercial printers and office products dealers new to the large format market, as well as new employees of existing large format printers.

---

### **Advanced Digital Photobook & Personalised Printing & Finishing Workshop**

For companies who have digital technology and some knowledge of photobooks, personalised printing and Paper Over Board products and who wish to develop this to an advanced level.

---

### **Adobe Creative Workshops**

Take your Adobe knowledge to the next level with workshops on the core Creative Cloud applications.

# ARE YOU A STAR OF SUSTAINABLE DEVELOPMENT?

**The Green Star System provides a credible definition of what is an eco-responsible paper.** The system is based on the combination of two main elements - the sourcing of raw materials and its manufacturing process. The definition established by Antalis aims to be simple to understand, easy to trust, stringent in terms of its requirements and based on internationally recognised standards. To be a 5-star paper, it must be awarded both the EU Ecolabel and be made from 100% recycled post-consumption or at least 50% recycled minimum (but the virgin fibre must be FSC® or PEFC certified).

**5 star papers include: Cocoon, Cyclus, Digigreen, Image Recycled and Xerox Recycled Supreme.**

Learn more at [antalis.co.uk](http://antalis.co.uk) or call 0370 607 9014.

## OFFICE & REPROGRAPHY / BUSINESS OFFICE PAPERS

## HP OFFICE

Recommended for home and commercial use, the HP paper line is the ideal brand for high quality printing. Made using ColorLok® Technology, it produces quick-drying documents with more vibrant colors and more intense blacks, with less risk of smearing. HP Office is engineered for high volume printing and copying.

- Reduces dust build-up that can cause jams and equipment wear/tear
- For high volume equipment
- Available in version quickpack (2500 sheets in a box) and 4-holes punched
- Made using ColorLok® Technology
- European range

OFFICE & REPROGRAPHY / TINTED SMALL FORMATS

Xerox Symphony

**XEROX SYMPHONY STRONG**

Xerox Symphony Strong is a comprehensive range of coloured papers. The paper is manufactured to the same exacting standards as Xerox Premier paper. The clear wrap enables quick and easy colour recognition without opening the pack. Xerox Symphony paper is ideal for the colour coding of documents or when maximum impact is required. PEFC® Certified

- Value for money
- Bleach type ECF
- Wide range of colours

Basic

OLIN ROUGH

The rough feel to this paper makes it very organic both to the touch and the eye. The coarse finish produces a pleasing bulky sheet.

- Highly tactile
- Wide range of shades and weights available
- Highest quality print reproduction
- Good environmental credentials including FSC® certification

# ARE YOU A STAR OF SUSTAINABLE DEVELOPMENT?

**The Green Star System provides a credible definition of what is an eco-responsible paper.** The system is based on the combination of two main elements - the sourcing of raw materials and its manufacturing process. The definition established by Antalis aims to be simple to understand, easy to trust, stringent in terms of its requirements and based on internationally recognised standards. To be a 5-star paper, it must be awarded both the EU Ecolabel and be made from 100% recycled post-consumption or at least 50% recycled minimum (but the virgin fibre must be FSC® or PEFC certified).

**5 star papers include: Cocoon, Cyclus, Digigreen, Image Recycled and Xerox Recycled Supreme.**

Learn more at [antalis.co.uk](http://antalis.co.uk) or call 0370 607 9014.

# CONQUEROR CX22

Ultra-smooth and lustrous, Conqueror CX22's low-friction surface produces a high-definition print result

- Ultra smooth finish
- Large range from 100 to 320g/m<sup>2</sup>
- Available with watermark
- Dry toner digital machine compatible
- Matching envelopes
- FSC® certified
- Carbon Neutral

PP 60

PP 60 is an offset litho printable synthetic that is suitable for indoor and outdoor use. It is flexible and conformable; perfect for curved surfaces such as drums and bulk containers. The product contains no Phthalates or heavy metals, so is suitable for decals and toys.

- Durable
- Flexible
- Conformable
- Does not produce dioxins when incinerated, so can be used as a fuel source
- Suitable for decals and toys
- Litho printable using oxidising inks

## CLARO SILK

# clarosilk

Claro Silk combines excellent printability with high levels of bulk and stiffness. This ensures fast and consistent runnability, and excellent folding and converting characteristics.

- Excellent whiteness
- Good opacity
- High bulk, silk finish
- Wide substance range from 90gm<sup>2</sup> - 400gm<sup>2</sup>
- Provides trouble free, first class printing results
- FSC Certified

## SATIMAT

Satimat is a woodfree triple-coated paper and board range. Its velvet touch offers a unique texture to printed communications requiring a sense of refinement.

■ ■ ■ SATIMAT®

- Excellent whiteness
- Good opacity
- Smooth, even surface
- Ideal for multi-colour printing
- Short drying time
- Wide substance range from 90gm<sup>2</sup>-450gm<sup>2</sup>
- FSC certified

## APPLICATIONS AND GUARANTEES

## SUITABLE FOR

## ENVIRONMENTAL CERTIFICATION

# OLIN ROUGH

The rough feel to this paper makes it very organic both to the touch and the eye. The coarse finish produces a pleasing bulky sheet.

- Highly tactile
- Wide range of shades and weights available
- Highest quality print reproduction
- Good environmental credentials including FSC® certification

## CHALLENGER PULPBOARD REELS

Challenger Pulpboard is an uncoated, solid bleached board, perfect for general purpose print jobs. Manufactured by the twin wire process, which produces an identical, even printing surface on both sides.

- High bulk ratio gives excellent rigidity and print results
- Excellent Brightness
- High White
- Made from ECF pulp
- FSC Certified

INVERCOTE DUO

Invercote Duo is a two-sided laminated solid bleached board. Due to its strength, toughness and thickness, it is especially suitable for various display purposes, and, like with the other Invercote items, is ideal for the packaging of luxury products.

Invercote® Duo

- Strong and durable
- Patented coating formula provides outstanding lightfastness
- The coating provides the end products with a longer shelf life
- Odour neutral pasting glue used

**CARTA INTEGRA**

# Carta Integra

Carta Integra is a fully coated, white back folding box board (GC1), with a double blade coating on the front delivering outstanding print performance. The part mechanical centre allows excellent foldability, whilst the single coating on the reverse delivers good four colour results

- Excellent smoothness and printability
- High brightness, which leaves unprinted areas with a clean appearance
- Excellent sensory and hygienic properties
- Wide range of callipers and sizes available
- Ideal for the packaging of luxury products

**APPLICATIONS AND GUARANTEES**

**SUITABLE FOR**

**ENVIRONMENTAL CERTIFICATION**

INCADA EXEL

Incada Exel is a fully coated cream back folding box board with an uncoated white reverse side (GC2). The stiffness characteristics of this board in relation to grammage make it particularly suitable for large machine erected cartons.

Incada<sup>®</sup> Exel

- Excellent smoothness and printability
- High performance in quality printing and varnishing
- Fast drying properties ensure good runnability in high-speed litho presses
- Designed for quality packaging and graphical applications

Coated Texture Board

**DOLCE VITA**

# DOLCE VITA

Dolce Vita is the perfect choice for greeting cards, and other high quality print and packaging. It is one of a new generation of papers that enables high definition print similar to that achieved on a matt coated paper whilst maintaining the tactile characteristics of a natural paper.

- Outstanding colour resolution
- Unique tactile characteristics
- Special pigmentation gives excellent brightness and ink lift
- FSC Certified
- Produced with 100% Green Energy.

## IDEM SUPERIOR OCR CF

A printable paper which forms the bottom part of a multi-part carbonless form. The difference between this and the standard CF bottom sheet is that It has been designed for applications requiring the reading by machine of characters printed with special Optical Character Recognition inks.

- Universally Recognised Performance
- High Quality Print
- Excellent Copy Intensity
- 'Anti-Blacking' Properties
- Not Pressure Sensitive
- Suitable for OCR Applications

## CARBONLESS PAPERS / PRE-COLLATED SETS

## IDEM SUPERIOR PRE-COLLATED SETS

The Pre-collated sets are available in 2, 3 and 4 part across 5 different sheet sizes. They provide offset printable papers for the production of multi-part carbonless forms. With proven on-press performance, and reliable, consistent edge padding results.

- Universally Recognised Performance
- High Quality Print
- Excellent Copy Intensity
- 'Anti-Blacking' Properties
- Pre-collated for ease of use

## IDEM DIGITAL CB - TOP SHEET

The CB top sheet has the same purpose amongst this range as it does the Idem Superior range. The only difference being that this one can be used for the production of forms on high-speed copiers and laser printers.

The product comes in 80gm only, making it more economical and ecologically friendly, and the coating formulation it has been produced with also means that it is now even more suitable for digital printing.

- Provides a high level of performance on all types of digital printers
- Excellent Toner Adhesion
- No Unpleasant Smell

## IDEM SUPERIOR REELS CB - TOP SHEET

CB is the original Idem sheet. Known as the 'top sheet'. It forms the top part of a multi-part form, with a reverse side, and pressure sensitive coating, which transfers an image/signature onto the sheets below.

These reels come in a variety of different tints, sizes, and weights (60gm, 80gm and 90gm).

- Universally Recognised Performance
- High Quality Print
- Excellent Copy Intensity
- 'Anti-Blacking' Properties
- Numerous Tints and Grammages for Increased Application Possibilities

## IDEM SUPERIOR REELS CFB - MIDDLE SHEET

CFB is the pressure sensitive intermediate sheet. Known as the 'middle sheet'. It forms the middle part of a multi-part form, which both receives and transfers an image - this is why it is known as the most sensitive sheet of the set.

These reels come in a variety of different tints, sizes and in 53gm and 60gm.

- Universally Recognised Performance
- High Quality Print
- Excellent Copy Intensity
- 'Anti-Blacking' Properties
- Numerous Tints and Grammages for Increased Application Possibilities

## IDEM SUPERIOR REELS CF - BOTTOM SHEET

CF is the bottom Idem sheet. It forms the last copy of a multi-part form, which receives the image. It is not pressure sensitive, and can be handled as a standard paper.

These reels come in a variety of different tints, sizes and weights (57gm, 80gm, 125gm and 170gm).

- Universally Recognised Performance
- High Quality Print
- Excellent Copy Intensity
- 'Anti-Blacking' Properties
- Numerous Tints and Grammages for Increased Application Possibilities

## CARBONLESS PAPERS / ANCILLARY PRODUCTS

### PADDING GLUE

Antalis 8101 Padding Glue is a synthetic resin adhesive, which dries to a tough, translucent and flexible film.

- Tough and flexible
- Leaves a clear finish
- Perfect for padding and multiple set making, where sets are glued at the head
- Recommended for 'open flat' type binding by hand or machine

Creative paper

## XEROX TRANSLUCENT PAPER

Xerox Translucent Paper prevents product loss by effectively protecting packed materials against physical damage, contamination and light. Product information can be printed directly onto the surface of the board. This information can be generic or personalised and offers a clear opportunity for branding. The smoothness and brightness provide excellent print results.

- Easily blends into background
- Matt surface does not produce any reflective glare

## XEROX CARBONLESS COATED FRONT AND BACK (CFB) / MIDDLE SHEETS

Benchmark image legibility on multiple-part forms. Its crisp easy-to-read imagery is 15% darker than any competitive product. Improved runnability – load the trays and let it run. Clean running – reduced dust and contamination. Superior toner adhesion. Approved across a wide range of Xerox digital equipment means one product and one inventory does it all – saving time and money.

**XEROX PREMIUM NEVERTEAR MATT WHITE ADHESIVE FILM**

Polyester is the optimum material when it comes to signage or label applications in demanding conditions – and where the highest print quality is expected. These products are tear, heat and water resistant, and the printed image is highly resistant to scratching.

There is a choice of white, clear or frosted finishes, and permanent or removable adhesive.

There's also a choice of matt or gloss to really show off your applications. When paper labels just aren't tough enough this versatile range won't let you down.

- Reliable
- High durability
- Superb print quality

## XEROX ECONOMY BANNER MESH (PVC LINED)

Economical vinyl-coated, woven polyester mesh: The graphic is presented on 85% of the surface, with 15% open for view-through or transmission of light. The open mesh also helps panels stay in place in wind or moving air. An easily removable backing liner absorbs surplus ink and ensures reliable passage of this media through the printer

- 75mm (3») core
- Solvent, Latex & UV printer compatible
- Water resistant

## KAPA TECH

Kapatech has a unique composition of polyurethane foam core with an aluminium skin combining light weight with rigidity. Kapatech also has class leading fire retardant and insulation properties.

- Polyurethane foam core with coated Aluminium coated skins
- Lightweight foamboard suitable for exterior as well as interior use
- Suitable for direct digital printing
- Good Dimensional stability and stiffness
- Excellent Insulating properties
- European Class BS2d0 fire classification rated “difficult to ignite” according to EN13501
- Can be folded and laminated without warping.

## DIBOND DIGITAL

## DIBOND® digital

Dibond Digital is the first aluminium composite material with a lacquer system that's optimised for direct to substrate digital printing. The surface of Dibond Digital provides enhanced ink adhesion for UV-curing and solvent based inks. The combination of both the enhanced ink adhesion and the extreme flatness of the panel make it not only possible to be printed with very fine structures and lines, but also allows increased printing speed. The thickness tolerance of only 0.2 mm allows a very small clearance between panel and the print heads

- Thickness tolerance of 0.2mm
- Resistance to outside temperature change
- Resistant to UV lamp distortion
- Enhanced ink adhesion

## SELF ADHESIVE PRINTING / SOLVENT/LATEX/UV INKJET PRINTABLE

Polymeric

### COALA 2D

Polymeric vinyl, dimensionally more stable and suitable for medium to long term application onto flat and semi curved surfaces.

- Dimensionally stable
- Partially conformable over curved surfaces
- Excellent opacity and minimal shrinkage
- Excellent flatness due to the applied PE liner

Specialties UV Offset Litho

**PENSTICK**

150 micron static cling PVC film, suitable for the adhesive free application onto glass and smooth surfaces. Designed for screen printing. Penstick is Europe's leading static cling brand, made from the highest quality materials ensuring quality consistency.

- Market Leading Brand
- Plasticised PVC (Phthalate-free)
- Clings without adhesive on smooth, glossy surfaces (like glass, PET, PMMA, PC)
- Leaves no residue
- Reusable
- Service life: indoors 3 years; outdoors 1 year

## SYNART

12 micron optically clear polyester mount film, coated on both sides with UV stable pressure sensitive acrylic adhesive, protected on each side by 30 micron clear polyester release liners. Designed for the face-mounting of images onto clear substrates.

- Optically clear
- Polyester PVC free
- Coated both sides with a solvent acrylic adhesive

## APPLICATIONS AND GUARANTEES

Image<sup>®</sup> puts you in the spotlight.

Make a distinguished impression with Image<sup>®</sup> papers. All Image<sup>®</sup> papers are designed and manufactured for specific applications, providing excellent paper for colour and mono printing. Every paper in the Image<sup>®</sup> range delivers excellent print performance and produces high quality colour and mono documents time after time. Certified with PEFC<sup>™</sup> and FSC<sup>®</sup> credentials and awarded with European Eco label, Image<sup>®</sup> papers offer an ecologically responsible and sustainable approach to the environment. Image<sup>®</sup> papers carry Green Star System rating communicating clearly their environmental impact and eco-efficiency.

Image<sup>®</sup> Digicolor is a premium quality uncoated papers for digital printing. Excellent smoothness and whiteness guarantee bright and vibrant colour printing results on laser printers, digital production presses and multifunctional copiers.

High quality printing is the key to the successful presentation of any document, company report or printed communication. Choose Image<sup>®</sup> to make a distinguished impression.

## ORACAL 631

80 micron Monomeric Plotter vinyl with a matt finish and removable adhesive. Designed to avoid reflections and maximise displays. Ideal for interior exhibitions and trade fairs.

- Soft PVC film (80 micron)
- 54 matt colours
- Excellent processing properties for cutting plotters
- For short- and medium-term markings, letterings and decorations of exhibition stands and materials
- Service life in exhibition buildings: 3 years
- Polyacrylate, removable
- Fire Rated: DIN EN 13501-1

### POLYART STANDARD

Polyart for HP Indigo is a 2 side coated HDPE film for HP Indigo printing with full HP certification for sheet presses . The product has the following benefits :

Water and tear resistant.

- No static issue for easy feeding through the press
- No grain direction so layouts can be configured either way on the sheet
- Excellent die cutting properties
- Very good folding characteristics
- Can be used for a multiplicity of applications: maps , brochures , guides and other durable documents and advertising
- Certification HP Indigo

# Xerox® Colotech+

The benchmark paper for digital colour printing.

Uncoated, high white paper with a super-smooth finish which enhances the brilliance and contrast of texts and images.

## PURE KRAFT PAPER

Pure, unbleached kraft paper sheets and rolls provide versatility and offer a superior strength and tear resistance than other paper wraps. Ideally suited for medium to heavy duty use, these products enable you to wrap and pack goods ready for dispatch whilst also maintaining a clean and professional appearance.

- Particularly robust
- Can be printed and processed to customer specifications
- Machine-finished
- Ideal wrapping paper for parcels
- Available in sheet or roll format

## CUSHIONING & VOID FILL / PAPER CUSHIONING SYSTEMS

### PADPAK JUNIOR

Cushioning and filling system based on robust kraft paper. Converts 2 layers of paper into exceptional cushioning pads.

- Rapid production of paper cushioning saves time
- Reduction in amount of packaging materials used
- Can be used anywhere
- Ideal for small to medium packaging operations
- Paper rolls require less storage space than other traditional void fill products
- Small and mobile

#### ENVIRONMENTAL CERTIFICATION

Pad Pak Junior 70/70 Paper	216	70	BOX B1 [088]	<b>10703</b>	83.06

## PADPAK SENIOR

Cushioning and filling system based on robust kraft paper. Forms pads made up of either 2 or 3 layers of paper that have very high shock absorbancy.

- Reduction in transport damage
- Single-material packaging when used with cardboard boxes
- Ideal for high volume packaging operations
- Customised integral solutions using special frames available
- Paper rolls require little storage space (eg compared to loosefill)
- Multiple operation modes
- Can use multiple paper types
- Can save packaging time

## PADPAK LC

The PadPak LC system consists of continuous paper and a converter. Converts 1 layer of kraft paper into a lightweight and sturdy cushioning pad.

- Ideal for protecting fragile products (<25kg)
- High-speed processing, making it extremely economical
- Excellent cushioning
- Versatile and suitable for a wide range of dispatch goods
- Converter can be adjusted to meet requirements of packaging site and the operating staff
- User friendly interface with adjustable speed

## FILLPAK TT

An effective way to fill empty spaces in a box to prevent your product from moving during transit. Converts 1 layer of paper into a high volume, star-shaped paper.

- An on demand void filling solution
- Compact size allows for easy integration into any packaging environment
- High speed operation reduces packaging time
- Paper is recyclable and compostable so very eco friendly

## CUSHIONING & VOID FILL / AIR CUSHIONING AND VOID FILL SYSTEMS

## AIRSPEED SMART

A convenient and cost-effective way to create inflatable void-fill cushions, on demand.

- Self-contained, compact and portable (weighs just 12 kg)
- Easy to operate – just load the film and press start
- Single system produces inflated cushions of varying lengths and air fill levels
- Easy installation, operation and low maintenance
- No compressed air supply or compressor required
- Very quiet
- Convenient, quick and cost-effective

## CUSHIONING & VOID FILL / AIR CUSHIONING AND VOID FILL SYSTEMS

## PRO PAK-R

The PRO PAK'R is equipped with the latest technology. It is Fast, Smart, Compact and Easy to use. One machine can be incorporated into multiple packing stations. The PRO PAK'R is capable of running a wide range of film types to suit most applications. It produces air cushions up to 21 meters per minute.

- Large range of films and applications
- Air-transfer technology
- Innovative accessories
- Reliability & efficiency
- Easy Maintenance

## AIRCAP BUBBLEWRAP SPACE SAVER

Using all of the same technology of the standard AirCap®, the space saver product allows you to store up to 20% more AirCap® E, in the same warehouse space. With AirCap® E you can also transport more bubble in the same truck, reducing carbon dioxide emissions and giving increased value per M3.

- Energy saving
- Allows for more efficient warehousing
- Effective in protection
- Economical in transport
- Environmentally friendly
- Increase handling efficiencies

## CUSHIONING & VOID FILL / LOOSE FILLING MATERIAL

### LOOSE FILL

Loose fill packaging chips are extremely durable and easy to dispense - reliably filling the space and gaps around any product. Our packaging chips also provide added protection through their resilience, excellent blocking and bracing properties and high compressive strength.

- Easy and quick to use, allowing packaging to be completed within seconds
- Economical with advantageous price-performance ratio and high labour productivity
- Chips interlock to form a vibration-proof packaging with a superior padding effect
- Very light product which keeps packed product weight and costs to a minimum
- Come in a 15ft<sup>2</sup> bag
- Available as either 100% recycled or fully biodegradable material

## TAPES & GLUES / 3M TAPES

## SCOTCH PAPER TAPE

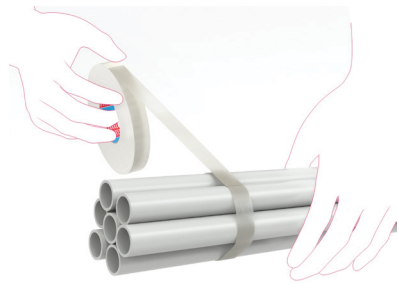

A clear, strong Cellulose film release coated for easy unwind and with a high tack adhesive.

- Scotch® Cellulose Tapes are produced using a strong, bio-degradable transparent film.

More information can be found on our website [www.antalisc.co.uk](http://www.antalisc.co.uk) search using code **2419**

WIDTH	ROLL LENGTH	Item number	Price £ (1 REEL(S))
25	66.00	<b>21946</b>	1.69

### 3M FILAMENT ADHESIVE TAPE

A range of general purpose tapes that are reinforced with two-directional (cross weave) glass filaments.

- The polypropylene backing provides excellent abrasion, moisture and scuff resistance
- Performs well throughout normal temperature ranges
- High cross-direction strength
- Excellent holding power
- Fully waterproof once applied
- Tamper evident

More information can be found on our website [www.antaldis.co.uk](http://www.antaldis.co.uk) search using code **0032**

Item number	Price £ (1 REEL(S))
72578	3.11
72580	6.21
72581	8.97

### 3M ADHESIVE TRANSFER TAPE

Our general purpose Adhesive Transfer Tape is perfect for bonding to paper and card.

- It creates thinner bond lines with a uniform thickness, giving you a more professional finish. Whether you're sticking paper, card, tissue, cloth, glitter or sequins, this tape works for so many hobby and craft needs! Ideal for detailed embellishments on cards, invitations and other stationery, it also makes adding inserts quicker and more efficient, without the seeping or wrinkling you can get with traditional glue.

More information can be found on our website [www.antaldis.co.uk](http://www.antaldis.co.uk) search using code **0021**

Item number	Price £ (1 REEL(S))
15501	3.80

## VIBAC PVC TAPES

PVC Adhesive Tapes coated with a natural rubber adhesive are a superior-quality product. PVC tapes provide a smooth and easy unwinding, as well as LOW noise application and are the best adhesive for printing applications.

- Designed specifically for challenging applications on medium to high weight boxes
- The product offers good performance over broad temperature ranges; specifically in temperature extremes and humid conditions (colder and damper applications)
- Adheres to recycled fiberboard, rough or ultra-smooth cartons, heavy ink coverage and dusty/dirty environments.
- PVC backing is strong and resistant to tears and punctures

## MAIL ROOM / PROTECTIVE ENVELOPES

## JIFFY PADDED BAGS

The original Jiffy Padded Bag offers significantly better performance in burst strength, durability and cushioning when compared to lighter weight mailers. Tough outer paper with 100% recycled paper fibre lining and folded construction. Double glued bottom flap and no side seams provide high resistance against bursting and puncture. Maximum protection for items you want to ensure arrive in perfect condition.

- 100% Recyclable
- Ideal for protection of heavy duty products. Protects products against shocks, moisture and dirt
- Self-seal adhesive strip
- Single central bag weld for added strength

## PACKAGING FILMS / HAND STRETCHFILMS

### HAND PRE-STRETCHFILMS

A range of economical pre-stretched hand films for the easy application of pallet stretchwrap.

- Minimal stretch required
- Extremely cost effective
- Easy to use
- Lightweight
- Secure wrapping for pallets
- Transparent
- Good tear strength

## STRETCHFILM MINI ROLLS

Mini stretch wrap rolls perfect for collation and bundling applications.

- Easy to use
- Lightweight
- Minimal stretch required
- Transparent
- Good tear strength
- Extremely cost effective
- Leaves no residue
- Great for bundling and banding

## HAND FIBER FILM

Encompassing the latest technology our hand Fiber Film offers excellent load security, whilst minimising pallet wrapping costs.

- Reinforced with unique Polythene banding
- Superior film strength
- Greater puncture and tear resistance
- Very flexible
- Excellent memory retention
- No propagation if punctured
- Easy to use
- Lower wrap costs

## PVC SHRINKFILMS

A plastic film which will shrink after being heated by either a shrink heat or gas gun shrink system

- Cost-effective film suitable for regular shaped products
- Available in various widths and roll lengths, with rolls centre folded
- Once shrunk, the film holds products in place
- Films have excellent clarity and transparency
- Must be used with appropriate shrink film machinery

## STRAPPING & STAPLING / STRAPPING BAND

### POLYPROPYLENE MACHINE STRAPPING

Polypropylene strapping band for use with a wide range of strapping machines

- Broad range of bands available
- Suitable for all makes of strapping systems and tools
- Used to bundle and palletise products
- Offers excellent performance and reliability
- Bespoke products available upon request

## STRAPPING & STAPLING / STRAPPING BAND

## POLYESTER STRAPPING (PET)

PET strapping band for universal applications and use with a wide range of strapping systems

- Broad range of bands available
- Suitable for all makes of strapping systems and tools
- Can be printed to customer specifications
- Better mechanical properties than steel bands
- Good shock absorption
- Less damage to the pack and pallet than steel strap and better transportation performance

## MASTERLINE HAND STRAPPING DEVICE 480

The Masterline 480 Friction weld strapping device is easy to use and simple to be adjusted. The 480 is ergonomically designed and perfectly balanced, it can perform both vertical / horizontal strapping. Comes with the latest generation of lithium battery. Perfect for any packing or shipping situation where strapping is to be used. Suitable for use with Polypropylene (PP) or Polyester strapping (PET) only.

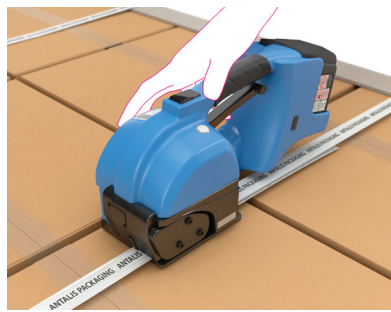

- Simple to operate
- Adjustable strap tensioning and sealing range.
- Single hand movement suffices to allow tension, weld, seal.
- Ergonomic shape makes handling easy
- Press button adjustment of welding time

More information can be found on our website [www.antalisis.co.uk](http://www.antalisis.co.uk) search using code **1661**

## STRAPPING & STAPLING / MANUAL STRAPPING & BUNDLING DEVICES

## MASTERLINE HAND STRAPPING DEVICE 490

The Masterline 490 Friction weld strapping device is easy to use and simple to be adjusted. The 490 is ergonomically designed and perfectly balanced, it can perform both vertical / horizontal strapping. Brushless motor and comes with the latest generation of lithium battery. Perfect for any packing or shipping situation where strapping is to be used. Suitable for use with Polypropylene (PP) or Polyester strapping (PET) only.

- Easy handling due to ergonomic shape of the device and with skid proof rubber handle
- 4 x adjustable function: Automatic, Semi automatic, Manual and Soft program for fragile packages
- Multifunctional start button
- Electro mechanical one touch start button
- Digital display with always visible parameters (tension, welding time,
